PROJECTS

1.The Physio - Project for Physio therapy Center and Gym Center (Ongoing) - 3rd Year

Contributing to the development of a management system for a physio therapy center and a gym center. My role involves giving contribution to gather requirements from the client, the owner of "The Physio," and actively participating in both the backend and frontend development of the system.

Tools and technologies:

React JS, Tailwind CSS, SpringBoot, Postgre SQL, GitHub

2.Gomez Medical Care Center - Project for medical care center management system - 2nd Year

Developed a Management System for Gomez Medical Center. My role involved gathering requirements, collaborating with team members, and contributing to the development of functions for lab assistants and receptionists.

Tools and technologies:

HTML, CSS, PHP, My SQL, Git Hub

BUSINESS PROCESS RE-ENGINEERING PROJECTS

1. DM Distributors (PVT) Limited

Identified and proposed re-engineering solutions for key and sub-processes related to medicine distribution in collaboration with DM Distributors.

2. ANIM8 Digital Printers (PVT) Limited

Identified and proposed re-engineering solutions for key and sub-processes related to digital printing in collaboration with ANIM8.
